

Unit 8. Section 2. Learning Objective 2

2. What are the three types of menu items inherited from JMenuItem?

JMenuItem, JCheckBoxMenuItem, JRadioButtonMenuItem

Unit 9. Section 1. Learning Objective 3

4. What is the purpose of the synchronized keyword in Java?

The synchronized keyword in Java is used to provide synchronization and mutual exclusion in multi-threaded environments. It ensures that only one thread can access a block of code or an object's critical section at a time, preventing concurrent access and potential data races.
